AmericasNLP 2021 Shared Task on Open Machine Translation

This is the official repository for the AmericasNLP 2021 Shared Task on Open Machine Translation. All scripts have been tested with Python 3.8.5, and requirements will be updated accordingly.

A example of data in the shared task's format can be found in `pilot_data/`, and `evaluate.py` is an example of the metrics and evaluations that will be used for submitted MT systems.

Data sources

If you use one or more of the datasets included in this repository, please do not forget to cite each of te original papers.
